

PROPOSED REVISION TO THE PROCESS FOR OBTAINING A LIMITED X-RAY PERMIT

NEW REVISED PROPOSED PROCESS – TO REPLACE SUBMITTED LANGUAGE	AS SUBMITTED FOR RULEMAKING IN DECEMBER 2017 (excerpt)
<p>337-010-0030(2) Process and timeframe for obtaining a limited x-ray permit:</p> <p>(a) To qualify to sit for an ARRT limited x-ray examination, a limited x-ray school graduate must have successfully completed a Board-approved Core Module course and must have successfully completed the didactic portion of a Radiographic Procedure Module (Skull/Sinus, Spine, Chest, Extremities, and/or Podiatric) relative to the anatomical area the graduate wishes to radiograph.</p> <p>(b) Graduate status begins on the date on the student’s course completion certificate, and may extend no longer than 24 months and seven days from the date on the graduate’s course completion certificate.</p> <p>(c) The graduate must pass the ARRT CORE exam with a score of 70 or above and must apply for an initial temporary permit within twelve months of the date on the course completion certificate, measured from the date on the course completion certificate to the date that the graduate’s application for an initial temporary permit is received at the Board. A graduate cannot perform a radiographic procedure on a patient without a temporary permit in the anatomic area that is being radiographed.</p> <p>(d) A temporary permit holder must deliver an application for a permanent limited permit to the Board within seven days of completing all requirements for the permanent permit, including practical experience requirements and passing the ARRT exam in a particular anatomic area. This seven-day deadline begins when the following two steps are completed in any order:</p> <p>(A) the graduate obtains a signed practical experience certification form in an anatomic area, and</p> <p>(B) the graduate receives notification from the board that they passed the ARRT exam in the same anatomic area.</p> <p>(e) A temporary permit holder has no longer than twelve months from the date of issuance of the initial temporary limited permit to complete all requirements for a permanent limited permit and deliver an application to the Board for a permanent limited permit in accordance with paragraph (d).</p> <p>(f) To qualify to apply to renew a temporary limited permit in an anatomic area, the applicant must provide documentation of having taken the ARRT examination in that anatomic area. If qualified, the temporary permit holder may apply for one six-month temporary permit renewal and must deliver the renewal application to the Board no later than the expiration date of the initial temporary permit.</p>	<p>337-010-0030(2) Process and timeframe for obtaining a limited x-ray permit:</p> <p>(a) To qualify to sit for an ARRT limited x-ray examination, a limited x-ray school graduate must have successfully completed a Board-approved Core Module course and must have successfully completed the didactic portion of a Radiographic Procedure Module (Skull/Sinus, Spine, Chest, Extremities, and Podiatric) relative to the anatomical area the graduate wishes to radiograph.</p> <p>(b) Graduate status begins on the date on the student’s course completion certificate, and may extend no longer than 24 months from the date on the graduate’s course completion certificate.</p> <p>(c) The graduate must pass the ARRT CORE examination within one year from the date on the course completion certificate, measured from the date on the course completion certificate to the date that the graduate sits for the exam.</p> <p>(d) After passing the CORE exam, the graduate has exactly one year to complete all requirements and to apply for a permanent limited permit. For each anatomic area that the graduate completed in school, as reflected on the course completion certificate, graduate status expires the earlier of:</p> <p>(i) 12 months from date that the graduate passed the CORE exam, or</p> <p>(ii) Seven days after the graduate completes clinical requirements for a specific anatomic area. Within seven days from when a person has passed the CORE exam and has passed an anatomic exam component, the person is required to apply for a permanent permit in that anatomic component.</p> <p>(e) To qualify to apply to renew a temporary limited permit in an anatomic area, the applicant must provide documentation of having taken the ARRT examination in that anatomic area. If qualified, the temporary permit holder may apply for one six-month temporary permit renewal that will expire the earlier of six months from issuance or 12 months from the date the graduate passed the CORE examination.</p>
